WIGGINS FERRY FIGHT ECHO. Harry G. Knapp Sues J. L. Hanley for \$2,675.

The contest for control of the stock of the Wiggins Ferry Company last spring was recalled by a suit filed by Harry G. Knapp against Joseph Hanley in the Cir-cuit Court yesterday for \$2,675, which, he alleges, is due as his share of commissions for selling Wiggins shares.

for selling Wiggins shares

Knapp avers that on April 29 last Charles
Millikin, being the owner of 107 shares of
Wiggins stock, agreed to pay Knapp and
Hanley, for selling the stock, one-haif of
all over 3800 a share that would be received
for the stock. It is alleged that the stock
was sold for 3800 a share; that Millikin
paid Hanley \$5.500, and that Hanley failed
to pay Knapp his portion of the money.

Zinc Ore Near Harrisburg.

REPUBLIC SPECTAL Harrisburg, Iil., Nov. 14.-Another rich vein of zinc ore has been discovered by the Big Four Zinc Mining and Prospecting Company of this city on their possessions nine miles south of this city. While blasting a few days ago four large veins were brought to Fght, four feet below the surface, which is pronounced by mineralogists the most remarkable and most valuable find ever heard of, from the fact that the veins cross each other, forming a checkered appearance, and where the veins intersect the ore is taken out in large chunks, with very little foreign substance in it. Notwithstanding the country surrounding this place abounds in untold mineral wealth nothing can be done in the way of development until the much-talked-of railroads are built, in order to enable the ore to be shipped to market. As it is, nine miles from any shipping point, hauling it to a railway station would entail too much expense. This is being done, however, on a small scale.

HALF THE PEOPLE IN THE WORLD HAVE STOMACH TROVELE.

Everyday Language, Free from

Scientific Terms.

Half the people in the world have stomach trouble in a greater or less degree. Usually it comes from irregular or hasty eating—sometimes from other causes. But there is just one way to treat it and that can be found in a booklet which the Doctor Williams Medicine Company, Schenectady, N. Y., will send free to any address upon request. Mrs. Eddib Benedict of Groton, Mass., is one of the many who took this course of treatment and was cured. She says:

course of treatment and was cured. She says:

"I had suffered from constipation ever since about the time my little girl was born, about twelve years ago, and it finally became chronic. It isn't necessary for me to tell you the trouble it gave me, but I suffered all the time. Doctors gave me no permanent relief and I kept getting worse.

"At last, something more than a year ago, when I was all run down and my blood in a horrible condition, my mother told me to try Doctor Williams' Pink Pills for Pale People, which, she said, had accomplished wonderful results with her. I purchased some and took them according to directions and in a short time saw a decided improvement. I continued their use and they cured me."

ment. I continued their use and they cared me."

If you are suffiring from any disorder of the stomach write for their free booklet, entitled "What to Eat and How to Eat." It contains information that should be in the hands of every person who is suffering from a disordered digestion. It treats of the proper selection and preparation of food, the relative value and digestibility of various food products; it contains a chapter on the use of alcohol and gives a course of treatment by which constipa fon may be overcome without the use of cathartics.

Doctor Williams' Pink Pills for Pale Propie, the medicine which cured Mrs. Benedict and thousands of others, are an unfalling specific for all diseases arising from impoverished blood or weakened, unstruig nerves—two fruitful causes of nearly all the allments to which mankind is heir. They may be had of any druggist or will be sent postpaid on receipt of price, 56 cents a box, six boxes £150, by the Doctor Williams Medicine Company, Schenectady, N. Y.

weekly review of trade to-morrow will say:

Lower prices for railway stocks than at any time since last March do not necessarily indicate loss of traffic nor a setback in business. On the contrary, coincident with the collapse of the stock market, there were numerous evidences that manufacturing and transporting interests have not sufficient facilities to meet demands, although plants and equipment are now of greater efficiency than at any previous time. Distribution of merchapdise is fully maintained, preparations being made for a heavy holiday trade, and frequent complaints of tardy deliveries testify to the heavy consumption. Prospects for continued activity are bright, because of unprecedented harvests, prosperity in the agricultural sections assuring a good demand for other products.

Threatened controversies have been averted, in some cases wages being advanced, while a number of increase

mand for other products.

Threatened controversies have been averted, in some cases wages being advanced, while a number of increases were voluntarily given. Hailway earnings continue to advance, the first week of November showing a rise of 4.5 per cent over 1900. And 15.7 per cent over 1900.

High temperature retards retail trade in seasonable goods. Aside from the expected decline in prices of pipes and tubes, there has been no evidence of weakness, and all the recent concessions were caused by competition of new plants here rather than diminishing business. Many purchasers are delaying orders in the hope that the market will go lower in other departments, but there is abnormal support in the light movement of coke. Rail mills are fully booked up to next September and a Canadian road placed a large order in Germany, while stouchard shapes are in great request, especially of bottless.

In the decided in prices have occurred, the market is decided in prices have submanded. Sections coming so slowly as to cause much compaint. Sole leather is active and firm, both demestic and export sales being large. Some Western shops are also busy, deliveries in one thanker advanced prices, which checked businamers advanced prices, which checked businamers advanced before have submanded, cotton goods, deepite the sharp decline in the raw material. Export trade is duil, Chinese business showing the effect of the break in silver, but foreign orders are in the market, and could be secured by slight concessions.
